NATHALIE LESMES RODRIGUEZ

Front-End Developer, Topographic Engineer

Topographic Engineer from Colombia living in Poland since 2019.
I started my DataBase develop journey during my bachelor degree and
since that moment I realized my passion to creating and solving
problems through coding.

I've spent the last year developing my coding skills in order to enter the
front-end developing field. I'm looking for the right opportunity to
develop my career.

I'm extremely motivated to grow professionally. I'm confident in my
ability to learn quickly and to create interesting ideas. I have a high
degree of responsibility, I'm proactive, with good management of
interpersonal relationships, and with interest in professional updating
and continuous learning processes.

I enjoy going hiking, traveling, dancing and reading during my free time.

VOLUNTEER EXPERIENCE

EUROWEEK FUNDANCJA POLAND | 2019 – 2020

- Cultural exchange experience.
- Leading activities, presentations and workshops about my country with students from Poland, Turkey, Azerbaijan and China.

ANGLOVILLE FUNDACJA POLAND | JUL – AUG 2020
